

Achieved a “B” Score in the CDP 2024 Climate Change Report

On February 7, 2025, Shinwa Co.,Ltd received a "B" score in the CDP "Climate Change Report 2024."

CDP is an international environmental NGO (non-governmental organization) founded in the UK in 2000. It analyzes and discloses environmental information collected from companies and municipalities worldwide. The evaluation of environmental information disclosure is conducted on an 8-level scale (A, A-: Leadership Level, B, B-: Management Level, C, C-: Awareness Level, D, D-: Disclosure Level). Our "B" score places us at the Management Level, which we believe reflects our recognition of environmental risks and their impacts, as well as our proactive actions.

Specific initiatives include the installation of solar power systems and the partial introduction of CO2-free electricity, aiming to reduce greenhouse gas emissions by 42% compared to 2020 levels by 2030. Through various efforts to address climate change and water risks, we are committed to solving environmental issues and contributing to the realization of a sustainable society.
